

Professional Development Workshop

March 24, 2010 • 3:00 – 6:30p

Yale University • Mann Student Center (Dunham)

Electronic Materials & Devices

“Seeing is Believing” PD series

This workshop is based on hands-on curricular materials, developed by Ken Spinka [Hillhouse HS] and Prof. Sohrab Ismail-Beigi [Yale], that focus on the materials science of electronic storage devices, i.e. hard drives, flash drives.

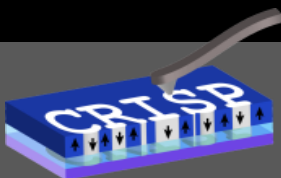

Application due March 1st

Space is limited, so participation may be granted on a first-apply basis

For details & registration:

www.southernct.edu/crisp • crisp.workshop@gmail.com

Participants to receive a **\$75 stipend** upon completion of workshop

Center for Research on Interface Structures and Phenomena
an NSF-funded Materials Research Science & Engineering Center
